

## PROFESSIONAL EXPERIENCE

### **Software Engineer II | JPMorgan Chase & Co.** | July 2024 - present

- Working in a reporting application that extracts and processes data from a huge data lake, presenting it in a user-friendly format like graphs & tables.
- Implemented Agile methodologies and best Scrum practices, enhancing team communication, collaboration, and overall software delivery efficiency.

### **Software Engineer I | JPMorgan Chase & Co.** | July 2022 - August 2024

- Led the full-stack design and development of critical applications and features, encompassing frontend, backend, and DevOps tasks in a real-time investment banking application. Took ownership of independent modules and features, ensuring their development and maintenance using best practices..
- Demonstrated adaptability, rapid learning and independent contribution, earning praise from peers and management for swift integration into diverse projects.
- Crafted tools and utilities that notably increased team productivity, earning recognition from senior management for proactive process enhancement.
- Mentored teams in internal hackathons, participated in presentations, competitions, and engaged in various non-business activities within the organisation.

### **Software Engineer Intern | Persistent Systems** | Jan 2022 – June 2022

- Designed and implemented software solutions using Spring Boot, Java, React JS, and SQL. Recognized as a top performer during a 6-month internship, demonstrating strong problem-solving skills and dedication to learning new technologies.
- Actively participated in knowledge-sharing, contributing to a collaborative learning environment, and staying abreast of industry trends.

## PROJECTS

### **PHP Satellite Server & Dashboard App** (Feb 2021 – March 2021)

<https://github.com/a6h15hek/php-satellite>

Technology used: PHP, MySQL, REST, ReactJS, Material UI.

- Engineered a Backend as a Service (BaaS) project deployable on PHP-compatible infrastructures.
- Implemented a User Management System and NoSQL Database (similar to MongoDB), storing data in key-value pairs within documents and Collections.
- Developed a dashboard app for developers and admins using ReactJS and Material UI for the efficient management of the PHP Satellite Server app.

### **Chatbot based Crime Registration Portal** (July 2020 – July 2020)

<https://github.com/a6h15hek/CrimeRegistrationChatbot>

Technology used: Parcel Bundler, JavaScript, NLP, Decision Tree, Firebase.

- Designed and developed a web application enabling real-time crime reporting through a chatbot for victims, ensuring remote and instant assistance. Upon the victims' responses, the chatbot generates an report for officers.
- Developed a trainable chatbot with the capability to incorporate new question datasets without explicit programming. Utilized a decision tree logic for effective and dynamic questioning

### **BunkSquad: Attendance Manager & Polling App** (Aug 2020 -May 2021)

<https://a6h15hek.github.io/bunksquad-website>

Technology used: Android, Java, Firebase Services, Cloud Firestore Database.

- Created an Android app for real-time attendance tracking and management, generating reports for students of their attendance.
- Implemented a polling feature that enables users to create or join groups, initiate multiple-choice question polls, gather votes, and facilitated group decision-making. Users receive comprehensive statistical reports of all submitted votes.

## RESEARCH & PUBLICATION

### **Cloud-based Application to Leverage the Coding in Education**

**Institutions** (August 2022)

<https://ieomsociety.org/proceedings/2022india/172.pdf>

- Conducted research and published a paper on using cloud-based applications to streamline coding education. Implemented methods to ensure a well-managed process, increase effectiveness and perform plagiarism checks.
- First Runner-Up, IEOM Society, 2nd India International Conference Paper Competition, 2022. Also implemented the solution in the final year project.

 **Mumbai, India**

## EDUCATION

B.E in Computer Science

YCCE, Nagpur, India

(July 2018 - June 2022)

CGPA: 8.56/10

## SKILLS

Java (Spring Boot)

Javascript (NodeJS, ReactJS)

SQL & NoSQL databases

Android Development,

Web Development

MERN stack, LAMP stack

HTML5/CSS

Git, Linux

Inventing, Problem Solving, Planning

## ☆ ACHIEVEMENTS

- AWS Certified Cloud Practitioner, demonstrating expertise in cloud computing and achieving certification.

- Won a cash prize at the EG-100 Educational Game Development Hackathon in 2021, an event organized by CDAC Mumbai and IEEE Bombay Section, demonstrating experience in educational game design and development.

- Finalist in GovTechThon 2020, hosted by IEEE Computer Society and supported by Oracle India and the National Informatics Centre (NIC) India.

- Passed the Graduate Aptitude Test in Engineering (GATE) in 2021, showcasing proficiency in engineering concepts.

- Finalist in the World's Biggest Open Innovation Model Smart India Hackathon (SIH) 2020, hosted by the Ministry of Human Resource Development (MHRD).
